[Read more about the course](#)

Time Commitment: Full day on September 9 – 8 hours Workshop

Designed for Individuals Participating as a Member of a Guideline Development Group

Pre-requisites: No prerequisite training required

Main Learning Objectives: After completion of the Guideline Group or Panel member course, the learner will be able to:

- Understand and describe the evidence-based methods to developing practice guidelines, based on the relevant topics of the GIN-McMaster checklist
- Apply the evidence-based methods as a practice guideline panel member

[Adolopment Module](#)

Pre-requisites: No prerequisite training required

- Guideline adaptation approaches seek to optimize the use of existing information and efficiency in guideline development while considering local evidence and factors for contextualization.
- This module provides INGUIDE trainees with an overview of the process and steps of using the GRADE-ADOLOPMENT approach for the development of health guidelines.

Workshop Option 2: Certified Guideline Methodologist Course
